Remarks

This is in response to the requirement for restriction set forth in the Official Action of July 23, 2004.

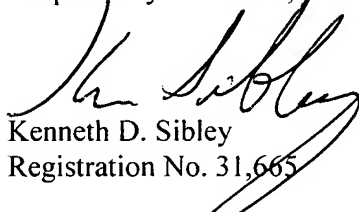

Applicant hereby elects the claims of Group II, claims 20-28, for substantive examination.

The Restriction Requirement with respect to Group I, claims 1-19, is respectfully traversed. It is respectfully submitted that claims to a method of use set forward in claims 1-19 would be searched with the composition claims 20-28, and if claims 20-28 are allowable then claims 1-19 should be allowable for essentially the same reasons. Accordingly, reconsideration of the Restriction Requirement is respectfully requested.

The Restriction Requirement does not address claims 29-36, but it is submitted that these claims should be examined with the claims of groups I and II for essentially the same reasons as set forth above.

It is submitted that this application is in condition for substantive examination, which action is respectfully requested.

Respectfully submitted,
